

Using Golf Genius to Sign Up for SMGA Rounds

Agenda

1. What
2. Why
3. Who
4. When
5. How

What

- Golf Genius (via a phone app or web browser) will be used to sign up for SMGA rounds instead of Chelsea.

Why

- Chelsea limitations on number of events per day (we hit this when playing special and alternate events and had to use paper signups)
- Chelsea limited to four weeks at a time – Golf Genius will allow signups for the entire season
- Golf Genius is at least as easy. It sends email confirmations like Chelsea.
- Less work for our tournament director(s) and eliminates errors transcribing the roster from Chelsea to GG.
- Automated wait lists when limits are hit.

Who

- Starting with a limited group – board
- Expanding to more golfers
- Eventually all will use when snow birds return

The other HOA1 leagues have already made the move!

When

- Pilot group already using/testing
- Year-round members over the summer – volunteer today!
- Snowbirds when they return in the fall
- Mandatory for 2027

How

- You will get a registration link to our league in Golf Genius – includes a temporary password and ability to set your own password
- Then you will log in to Golf Genius using your email address and password, not a GGID. You will use that method both for round registration and live scoring.
- If you don't have a smart phone, there is a web browser method.
